CANOES & KAYAKS

Paluski boats are manufactured in Lakefield Ontario and come with a 5 year residential and 1 year commercial warranty.

All of the Paluski boats are rotomolded using 3 layers of polyethylene, which makes the boats both lighter and stiffer. This also allows the boats to be more durable and less expensive than other methods of manufacturing. All the boats are available in solid or two tone finishes, with a huge selection of colours.

SIDEWINDER REMOTE CONTROL DIRECT DRIVE MOTOR A Direct Drive Boat Lift Motor, with Remote allows you to "walk away" from the work of raising your boat. The Remote Control Direct Drive Boat Lift Motor is available in a 110 volt and 12 volt models. It works on boat lifts up to 7,000 lbs and it's quick to install and operates 30% faster than the Lift Mate Wheel Drive Boat Lift Motor. A toggle switch unit is optional.

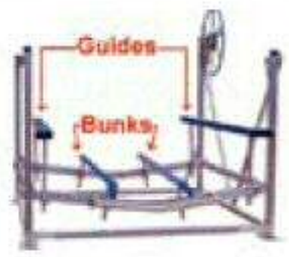
SHOREMASTER DOCKS AND LIFTS – ONTARIO, QUEBEC AND MARITIMES ONLY

STANDING BOAT LIFTS

ShoreMaster offers three basic types of standing boat lifts the Vertical Lift, the Cantilever Lift and the Hydraulic Lift. The economical Shoreline Boat Lifts are also available.

Shoreline Cantilever Boat Lifts give you just what you need, a safe, durable and trouble-free cantilever boat lift system that won't break the bank. From 1,000 lbs for PWC's up to 2,500 lbs for runabouts.

ShoreMaster vertical lifts are designed for shallow waters, highly fluctuating waters and rough waters where you need to get your boat high out of the water. Available from 1,200 lbs (for PWC's) to 7,000 lbs



Shoremaster Cantilever models lift the boat with a pivoting motion. Our cantilever lift is generally easier to crank up than a vertical lift, and mechanically simpler, with fewer moving parts. Cantilever boat lifts are designed for non-fluctuating waters of over 2.5 feet, the simple design of one cable and three pulleys offers proven performance for years of maintenance-free operation. Available from 1,200 lbs (for PWC's) to 5,000 lbs.

ShoreMaster's hydraulic lift represents the most advanced technology available. Its quick, quiet operation will lift your boat out of the water in seconds. With the optional keychain remote, it's as easy as pushing a button. Available from 2,000lbs to 12,000 lbs.

Canopy Covers

ShoreMaster or Shoreline Industries Canopy cover can save you time by automatically keeping your boat dry and protected from sun, wind, and rain. Genuine ShoreMaster Canopy covers are designed to fit your ShoreMaster canopy frame to exacting standards. Shoreline Industries Replacement Canopy Covers are easy to install and easy to keep clean.

SWIM RAFTS & DOCKING SYSTEMS

FLOATING BOAT LIFTS

Floating Boat Lifts from ShoreMaster work best in floating docks, U-shaped slips, or attached from the front of the lift to an existing floating dock or pier. The heavy duty boat lift arms are built super tough and they're strong enough to give you peace of mind when you leave your boat on the lift. The rigid, crush resistant tanks can withstand even the toughest waterfront challenges. And the Heavy Duty Dock Brackets hold it all in place.

GalvaLift PWC Lifts -. GalvaLift Personal Watercraft Lifts are available in two styles: the Front Mount, for use inside a wet slip, and the Side Mount, for use on the side of a dock. Floating PWC lifts are a great choice for their durability and longevity.

GalvaLift Boat Lift/Rhinohoist Boat Lift - Engineered for use in U-Shaped floating dock systems, deep water or shallow water and fixed pier applications.

GalvaLift Boat Lift - GalvaLifts are newly configured for two PWC Styles: 4500, 6500, and 8500 capacities in the runabout lifts for floating or side mooring applications; and 10,000 – 27,000-lb. capacity for larger cruisers.

Rhinohoist Boat Lift - Available for slips from 9' wide to 14' wide and in capacities of: 4000 Pounds - Power Boat or Pontoon; 5000 Pounds - Easily Adjusting Hull Pads; 6000 Pounds - Two Piece Pivot Bushings; 8000 Pounds - Tubular Steel Construction

SHOREMASTER DOCKS

Standing Docks The infinity series of standing docks from ShoreMaster feature stainless steel and brass hardware for exceptional durability. It allows for unlimited layouts. Installation and removal is fast and easy. Infinity docks require only a few tools, and in some cases no tools at all to layout and install the dock you desire. Infinity docks by ShoreMaster also feature the exclusive quick connect system, making it fast and easy to add or remove ShoreMaster accessories.

Shoreline Dock - from Shoreline Industries is the perfect budget dock! Designed to be super light-weight, each 4' x 10' aluminum frame weighs just 36 pounds! This dock is also super tough! The unique interior cross bracing provides superb torsional rigidity, and each frame is welded to make installation and durability easy and long lasting!

Infinity RS-4 - The unique design of ShoreMaster's Infinity RS-4 dock provides for unlimited dock configurations including curved sections. Its lightweight all-aluminum design provides you with a system that is easy to install and remove from the water. Available in 4'X10', 4'X12' and 6'X8'.

Infinity RS-7 - ShoreMaster's Infinity RS-7 standing dock offers you easy installation with a simple, lightweight sturdy design. Choose from the Infinity leg pockets, or the adjustable screw leg with foot pad option. Available in 4'X8', 4'X16', 6'X8', 6'X16', and corners. Wheel in option also available.

Infinity TS-9 - The TS-9, when used as a standing dock, provides a great strength-to-weight ratio. Choose from ShoreMaster's patented Infinity leg pockets, or the adjustable screw leg with foot pad option. Available in 4'X8', 4'X16', 6'X8', 6'X16' and corners. Wheel in option also available.

DECKING OPTIONS FOR STANDING AND FLOATING DOCKS - Choose from seven beautiful, safe and durable decking options. Tan Titan, Titan, Ipe, Cedar, Vertex, White Painted Aluminum, and Aluminum.

FLOATING DOCKS - Float it an d forget it. ShoreMaster floating docks are the perfect alternative for deep and fluctuating water conditions.

Infinity FTS-9 Dock - Our family of residential floating docks wouldn't be complete without our Floating FTS-9 Dock. The light-weight aluminum truss construction is a key feature, offering virtually maintenance-free use and operation. Available in 2'X4', 4'X4', 4'X8', 4'X16', 6'X8', 6'X16' and corners. All sizes of black foam filled floats are also available.

Floating Polydock - ShoreMaster's floating Poly dock features an attractive brick patterned deck surface and an easy-to-use connection system that requires little effort to install your system or change your layout. Available in 3'X10', 4'X6', 4'X10', 5'X10' and 6'X8'.

SLIDES & DOCK ACCESSORIES

Shoreline Dock Furniture

Patio Set:
This unique set comes complete with 2 high quality swivel chairs, bistro table and umbrella. The whole system mounts to the edge of your dock so it doesn't take up valuable dock space.
